Dear Kamila,

Congratulations! On behalf of the entire campus community at Clarkson University, we are thrilled to offer you admission into our Class of 2029. We truly believe you will bring something special and unique to this diverse and talented class.

Based on your application, we have reserved a space for you in the Financial Information & Analysis program. Our admissions staff, faculty members and current students would be delighted to answer any questions you have about your program and curriculum, professional development, student life, housing, or other aspects of the University.

Your financial aid offer will be available to view on your Clarkson Status Portal within 7-10 days once your official FAFSA is received from the Department of Education. If you haven't done so already, we highly recommend that you submit the FAFSA form at this point. If you will not be submitting the FAFSA form, please contact our office and we will provide you with a merit-only scholarship offer in a similar timeframe. This official offer will include specific scholarships you may have already been awarded through your high school experiences or applied for through the Clarkson Status Portal.

Once you've had the opportunity to review your financial aid offer, we welcome you to confirm your decision to become a Golden Knight this fall and pay your \$500 nonrefundable admission reservation deposit. The reply deadline is May 1, 2025. You may confirm this by replying to the Offer of Admission on your Clarkson Status Portal or by completing and returning the enclosed form. Please note, an official final high school transcript reflecting your successful degree completion must be provided prior to enrollment. URL:

For over 125 years, Clarkson has been educating students for dynamic professional careers and fulfilling lives. Our graduates and their employers tell us again and again that our collaborative, supportive learning environment, our team-based projects and undergraduate research experiences provide the skills needed to excel in the working world. The success of Clarkson's educational model is reflected in our numbers: Our 98% placement rate is among the highest in the nation. Our alumni also experience accelerated career success. In fact, one in five Clarkson alumni is already a president, CEO, vice president or owner of a company.

Katy Collette is the admissions staff member for your area. Please feel free to contact Katy at 800-527-6577 or via email at kcollett@clarkson.edu if you have any questions about applying for financial aid or about your admission to the University.

Again, on behalf of the entire Clarkson campus, we welcome you to our Golden Knight family. You should be proud of this accomplishment! We sincerely hope to see you on campus next fall.

Sincerely,

Brian T. Grant '93
Vice President for Enrollment & Student Advancement
